<b>X1A</b>	MEMORANDUM FOR THE RECORD  SUBJECT: dicussions with Representatives	25X1A
25X1A	1. On 18 July 1966 representatives of OSA met with personnel to discuss technical problems causing delivery slippage and future delivery schedules. Individuals attending the discussions were as follows:	25X1A
25X1A 25X1A 25X1A	D/M/OSA M/OSA C/Avionics/M/OSA ASD/OEL M/OSA CD/OSA CD/OSA	
	2indicated that component failures under environmental testing contributed heavily toward delivery schedule slippage on the second (602) 13C system. He attributed this trouble to a bad batch of components (capacitors, diodes, etc.) and felt confident that with the solution of this problem they could adhere to a more realistic schedule which is included as Attachment A to this memorandum.	

3. Also attached to this memorandum, Attachment B, is a distribution schedule for the 600, 700 and 800 series 13C units. This schedule, however, is contingent upon concurrence of all parties concerned.

Spare parts and handbooks will be shipped simultaneously with equipments.

25X1A

In order to meet this delivery schedule established by use of our Manufacturing Facility, it is requested that all units be identical. This would mean that battleshort-capability be inserted in the 700 and 800 Series unit. Cost associated with providing at his passible worked becaperoximately \$4.000.
